Team 5 Student ID a1790922 Week starting: 13

Day	Date	Time In	Time Out	Total hours	Task	How does it fit into project plan?	Outcome/Next action
Monday	6/06/2022						
Tuesday	7/06/2022	2:30 PM	4:30 PM	2	Solve problems in frontend and backend connections	Completion of additional requests from clients	I assisted yenyou to solve some problems in multiple choice grades.Now this function can basically be used normally.
Tuesday	7/06/2022	4:30 PM	8:30 PM	4	Query optimization	Shorter wait times improve user experience	I looked up a lot of information on the Internet, and finally further optimized the query algorithm. I used a dictionary instead of nested loops. I used .select() to return only the data I need instead of all the data. I used .lean() to reduce the return type, I don't need to return a document object.
Thursday	9/06/2022	8:30 PM	10:30 PM	2	Group meeting	We discussed the task schedule for the week	We arranged the final project presentation process with the client. We discussed the testing plan and task allocation. We will do the system test as a group.
Friday	10/06/2022	11:00 AM	1:00 PM	3	Prepare the content of demo presentation and practice as a group	Let clients know about our final project results	Next action: Final client meeting demo.
