1 Presentation about our current progress

We finished building the structure of the Course Relationship function. Although there are details that still need to be fixed, the main features have been established. We would like to walk our client through our website and give our client an update about the work that we have done.

2 Question

3.1 Question about the blank distribution data

When we search the prerequisite courses data, there are courses that do not have any distribution data. We are wondering, for this circumstance, should we delete the course from our database?

3 Feedback

3.1 Asking for feedback about our current outcome, is that anything we could improve?
