|-----------|------------|-------------|------------|-------------|--|---|--|
| Monday | 16/05/2022 | 10:00:00 AM | 4:00:00 PM | 6 | 1. Change the title of overall grades based on what have clicked. 2. Make the same effect on the dependency (Same as Prerequisite search) 3. Learn more about useSelector and useDispatch 4. Client meeting | Update our website, provides more information on the Grades | 1. Clicking the "Overall Distribution" will change the Chart back to original but going back to the previous clicked object won't change anything (1st Issue found). 2. Client really like our Web App. Gave a suggestion (have a tick boxes for selecting more than one grades) |
| Tuesday | 17/05/2022 | 10:00 AM | 6:00 PM | 8 | 1. Update the title of the Bar Chart of both Pre and Dep Search when clicked 2. Make the button useable to move from Dep to Pre and vice versa. 3. Group meetings for the Testing Plan | 1. The title was a fixed title, no user experience 2. The buttons improves the user experiences 3. Assign tasks for each person and brainstorm some ideas | The Bar Chart and Overall Chart has been separated for Prerequisite and Dependency. Was using same component; each have different effects. The title was a fixed string, but now it will change based on what have been clicked and the grades will show as well when clicked. Buttons for both Prerequisite and Dependency was not useable but now it can take the last input the user inputted and navigate to the required pages. Task for the Testing Plan have been assigned, next action will be finish up the assigned task and have a online meetings to combine our work. |
| Wednesday | 18/05/2022 | 9:00 AM | 11:30 PM | 2.5 | Write up the testing plan for our project | Have a testing plan give us an idea of how our website need to be improved and what is the high priority bug that need to be fixed. | Found a bug where if the course doesn't have a dependency, it will show nothing. Solution: Make a new component that shows there is no dependency for this course. |
