## Minutes of the Group Meeting

Team 05

Yiwei Zhang, Lei Jin, Shuchen Wu, Yen You Chew

Tuesday 5th April 2022

Note taking for the meeting:

Shuchen Wu

### 1 Time and Place

The group meeting for the Master of Computing & Innovation Group Project was held online at 2:00 pm on Tuesday 5th April 2022.

### 2 Questions/Feedback for other groups

To Team 3:

Q1: What might be the possible project extensions to your product?

Q2: How do you define the summary of a video? Is it by deleting repeating frames, or by editing the video so that it only has the most interesting part of the video?

Q3: As a user of your product, is it possible for me to upload a video that is less than 1 hour?

To Team 19:

Q1: With the current solutions (if there are any), what is your advantage over them?

### 3 Plan

#### 3.1 Plan for this week

Build up the connection of frontend and backend. Setup the web structure. (Shuchen Wu & Yen You Chew) We plan to keep the weekly meeting during the mid-semester break.

#### 3.2 Role assignment for Sprint 01

Alvin: database connection, lookup user name and password from the database. Develop the basic algorithm for searching for the distribution of courses. Gathering course dependency data.

Yiwei Zhang: Backend API, develop the basic algorithm for searching for the distribution of courses.

Shuchen Wu: frontend development, interface of the website.

Yen You Chew: frontend development, call backend api in frontend.
