Thursday 31st March 2022

1. Discussion of changing / reducing the functions

1.1 As we got feedback from Cruz about our business case, there are four functions in our website, it is too ambitious to develop within a semester. The meeting is aiming to discuss which function/functions can be cut off, and how we can improve the functions that we are going to develop.

2. Discussion of improving the business plan

2.1 There are some blurry areas in our business. The inclusive summary does not seem to describe our project. The overall logic of the business plan is not clear. And the pain points from users do not make sense. We need to discuss the logic flow of our business. Is there an extra meeting necessary with our client Nick? The questions that we are going to ask our client.
