

## MCI Project Weekly Time Sheet

Team

5 Student ID a1820200

Week starting: week 6

Day	Date	Time In	Time Out	Total hours	Task	How does it fit into project plan?	Outcome/Next action
Monday	4th April	1:30 PM	2:30 PM	1	Client meeting discuss the function. Group meeting discuss the plan and task for this week.	Fit into the milestone 1 plan	Next step: tasks allocation on github project
Monday	4th April	2:30 PM	3:30 PM	1.5	Question for other group's pitch presentation	learn from other group (not part of the project plan)	Next step: Answering questions from other groups
Monday	4th April	5:30 PM	12:30 PM	7	Rewrite the business case	Rewrite the business case based on feedback from Crzu and the changed that we make to our project.	Tuesday group meeting validate the business case + draft plan
Tuesday	5th April	3:00 PM	4:00 PM	1.5	Group review the Business case & draft plan	Finalise the report	Next step: Design the layout for the report
Tuesday	5th April	7:00 PM	9:00 PM	2	Adjust content, design the layout for the report. Write meeting minutes	Finalise the report. Document meetings	Submit the report
Thursday	7th April	3:00 PM	3:30 PM	0.5	Discuss front end code format with Yan You Chew	We are building front end together, this discussion will improve the efficiency of reading each other's code	Next step: Build the front end web structure
Saturday	9th April	5:30 PM	10:30 PM	5	Watching tutorial of React Router. Building the front end structure of website pages	Fit in plan of the week: building the architecture of the website	Next step: Redesign the UI of home page (we reduced the number of functions, the previous menu page does not fit to our project anymore), and then build up the header component of the home page
Saturday	9th April	10:30 PM	1:00 AM	2.5	Redesign the homepage, and develop the header	The design part is actually out of this week's plan. But it is still important because our product promise to provide a good user experience.	I have not finished the header and homepage yet, keep going tomorrow.
Sunday	10th April	2:30 PM	5:30 PM	3	Developing the frontend header and homepage.	After login, it needs to jump to home page. So homepage need to develop at this stage.	We finished the login function, next step is to show the function to our client to see if there is anything that we need to change.
Sunday	10th April	5:00 PM	8:00 PM	3	Researching on how to do a hover effect on React button	Important for improve user experience	I figured out how to change the text on the button using hover. Still need time with changing the effect of a button with hover.
