MCI Project Weekly Time Sheet

Team	5	**Student ID**	a1686965	**Week starting:**	23/05/2022

Day	Date	Time In	Time Out	Total hours	Task	How does it fit ito project plan?	Outcome/Next action
Monday	23/05/2022	9:00:00 AM	11:00:00 AM	2	Update the dep and pre	Show "No course" if there is no dependency or prerequisite of the require course	There is a new issue. Clicking the Grades won't change the charts anymore. Someone changed the variables. Have to look into it.
Monday	23/05/2022	11:30:00 AM	12:30:00 PM	1	Fix the issue with Athena	Need to fix this problem ASAP	Found out that the problem was the version of D3. Before this new problem, it was version 7, so we upgraded back to it. Athena downgraded to 5 to test new things but didn't not think it would affect the charts.
Monday	23/05/2022	1:30:00 PM	3:30:00 PM	2	Client Meeting	Update our work to client and get feeback to improve our website	Client really like our second function. We have the backend results but we haven't connect the results to the frontend. Our frontend only have a blank page (white page). Athena is working on the design of that page and the node graph for the results.
Tuesday	24/05/2022	10:30 AM	6:30 PM	8	Link the backend result to the frontend	Show the results at the frontend we got from backend	The Node graph is very beautiful. I have connected the data from backend and show it on the node graph. I will try to make an extra effect where when clicked on the nodes, a prediction grade distribution graph will display on the right.
Wednesday	25/05/2022	12:30 AM	2:30 AM	2	Help fixing a backend issue	backend crashed, can't work without backend	Don't know what is the issue but clearing the cache and reinstall npm fix it.
Wednesday	25/05/2022						
Thursday	26/05/2022						
Thursday	26/05/2022						
Friday	27/05/2022	1:00 PM	6:00 PM	5	1. Read and do some reasearch on the ForceGraph2D. 2. Add an interaction to the graph for our second function	Allow user to see the pridiction grade for each course	Now when clicking on the link, a distribution of a prediction graph will show. Our idea is click on the node instead of the line(link), but so far we can only make this. We will see if there is other way to do it.
Saturday	28/05/2022	12:00 PM	3:00 PM	3	1. Make some upgrades to the node for interaction 2. Show an indication if there is no data available	Interaction to improve our website and show more informations.	The interaction is now completed. Next actiion could be imporve coding performance.
Sunday	29/05/2022	10:00 PM	11:00 PM	1	Update the dep and pre	Show "No course" if there is no dependency or prerequisite of the require course	There was an issue when we try to show "No dep/pre for this course".
