1 Time and Place
The group meeting for the Master of Computing & Innovation Group Project was held face to face, at 10:30 am on Tuesday 10th May 2022.

2 Goal of the week
2.1 After submitting the reflection of Milestone 1 report, we found that the progress is a bit later than our initial plan (the dependency search is still in progress, and there are some improvements needed for other parts). We are aiming to finish the Course Relationship function this week. From next week on, we should start milestone 2 and be developing our next function – Course Advisor.

3 Task allocation
3.1 Lei Jin
- Responsible for developing and connecting new search bar with autocomplete

3.2. Yiwei Zhang
- Responsible for developing the backend of dependency course grade search
- Verify token when calling backend API
- Changed the backend return data type to front end

3.3 Yan You Chew
- Responsible for developing click on grade to call the distribution for the searched course in both prerequisite and dependency
- Responsible for building the connection between frontend and backend with dependency search
- Fix the prerequisite search refreshing bug

3.4 Shuchen Wu
- Responsible for developing the hero motion/image for home page
- Responsible for styling the dependency display page
- Responsible for developing the user experience (e.g the clicking, clicked and hover effect based on user's behaviour)
