Minutes of the Client Meeting

Team 05
Yiwei Zhang, Lei Jin, Shuchen Wu, Yen You Chew
Monday 2nd May 2022

Note taking for the meeting:
Shuchen Wu

1 Time and Place
The group meeting for the Master of Computing & Innovation Group Project was held online at 1:30 pm on Monday 2nd May 2022.

2 Presentation of our website

3 Question
3.1 Question about the blank distribution data
We should not delete the course from the database, we should design a page and tell the users that the data is not available.

4 Feedback
4.1 Overall feedback
Our client is satisfied with the progress that we have made so far.
4.2 Improvement
The donut chart for the overall distribution is not clear enough for the users to read. The suggestion is considering changing the donut chart into another type of chart.
4.2 New requirement of the course relationship feature
Our client hopes to have a feature that can show e.g how the student performed HD in the prerequisite course performed in the searched course.
